

MSAPMPER300C – ISSUE WORK PERMITS

This competency unit addresses the need for personnel who issue work permits. It includes the issue of any and all permits. It applies to the issuing of permits covering a single plant or plant area such as might be an operators scope of responsibility.

It applies to personnel who are required to issues appropriate permits to work to persons conducting a variety of activities in workplace environments in which hazards exist or specific procedures need to be followed and monitored to protect the safety of personnel and the integrity of plant or process.

You will learn about:

- reviewing the conditions under which the work will be undertaken
- examining the site to determining the hazards and safety requirements applicable to the site
- ensuring the appropriate permit(s) is (are) selected depending on the organisations procedures
- determining the appropriate conditions for the permit(s)
- raising, authorising and issuing the necessary permit(s)
- monitoring compliance with the permit conditions
- reporting any indiscretions or violations of permit conditions and where necessary revoking permits
- managing the permit process especially in shift hand overs or extensions to work activities
- withdrawing and signing off work permits on completion of the work and verification that the requirements of the permit have been complied with.
