

## PUAWER005B – OPERATE AS PART OF AN EMERGENCY CONTROL ORGANISATION

This unit covers the competency required to implement the emergency response specified in the workplace emergency procedures or specified by a person at a higher level in the emergency control organisation. People who undertake this work will be working within the command, control and coordinate structure of the emergency control organisation. This unit has been developed to cover the broad range of emergencies and workplaces as considered in Australian Standard 3745-2010.

It applies to employees in the workplace within all industries and in all contexts. It places responsibility on individual employees who are delegated responsibility as part of an emergency control organisation to participate in the preparation of workplace emergency procedures; alert and report potential workplace emergencies; evaluate the need to evacuate a work area; prepare for an evacuation; and assist people who may require assistance in accordance with workplace emergency procedures.

You will learn about:

- arrangements for evacuating people who need support
- assessing and anticipating the progress of emergencies that might reasonably be expected in the workplace
- command, control and coordinate function of the emergency control organisation
- context of own role within the workplace emergency procedures
- emergency assessment and reporting procedures
