

**UETDRRF06B – PERFORM RESCUE FROM A LIVE LV PANEL
and
HLTAID001 PROVIDE CARDIOPULMONARY RESUSCITATION**

HLTAID001 covers the skills and knowledge required to perform Cardiopulmonary Resuscitation (CPR) in line with the Australian Resuscitation Council (ARC) Guidelines. This unit applies to all workers who may be required to provide CPR, in a range of situations, including community and workplace settings.

You will learn about:

- State/Territory regulations, first aid codes of practice and workplace procedures including:
 - ARC Guidelines relevant to the provision of CPR
 - safe work practices to minimise risks and potential hazards
 - infection control principles and procedures, including use of standard precautions
 - requirements for currency of skill and knowledge

**NATIONALLY RECOGNISED
TRAINING**

- Legal, workplace and community considerations, including:
 - awareness of potential need for stress-management techniques and available support following an emergency situation
 - duty of care requirements
 - respectful behaviour towards a casualty
 - own skills and limitations
 - consent
 - privacy and confidentiality requirements
 - importance of debriefing

Considerations when providing CPR, including:

- airway obstruction due to body position
 - appropriate duration and cessation of CPR
 - appropriate use of an AED
 - chain of survival
 - standard precautions
- Basic anatomy and physiology relating to:
 - how to recognise a person is not breathing normally
 - chest
 - response/consciousness
 - upper airway and effect of positional change

NATIONALLY RECOGNISED
TRAINING

This unit is a pre requisite requirement before undertaking training in:

UETDFFF06B covers the performance of rescue procedures from live Low Voltage (LV) apparatus, not including overhead lines and underground cables in the workplace. It specifies the mandatory requirements of rescue from a live LV panel and how they apply in the context of transmission, distribution or rail work functions. It encompasses responsibilities for, health, safety and risk management processes at all operative levels and adherence to safety practices as part of the normal way of doing work.

You will learn about:

- Inspection of rescue equipment
- Assessing hazards to rescuer, victim and others
- Isolation procedures where appropriate
- Knowledge of Safe Approach Distances (SAD's) appropriate to rescue from a live LV panel
- Involvement of external emergency services
- Placement of rescue equipment
- Controlling hazards to rescuer, victim and others
- Maintaining Safe Approach Distances (SAD's) appropriate to rescue from a live LV panel
- Practical demonstration of rescuing a person
- Removing victim to safe location / place of safety

Language, literacy and numeracy requirements - Language skills sufficient to make an accurate verbal report to supervisor and/or emergency response services.

Duration – Approximately five (5) hours

NATIONALLY RECOGNISED
TRAINING

Delivery Location - This training can be conducted at either your premises or at our training centre. Where training is held onsite, training rooms that can comfortably accommodate the class size are required.

Personal Protective Equipment

- Covered shoes
- Other requirements as specified by your workplace or legislation

Assessment - The assessment will consist of written and practical activities and written and practical assessment.

Certification - Upon successful completion each participant will receive a nationally recognised statement of attainment for UETDRRF06B Perform Rescue from a Live Panel and HLTAID001 Provide cardiopulmonary resuscitation.

Cost - Please contact our office on (07) 4779 3667 for information on fees, scheduling and a copy of our Candidate Handbook.
