

## CPCCLDG3001A – LICENCE TO PERFORM DOGGING

This unit specifies the outcomes required to perform slinging techniques, including the selection and inspection of lifting gear and/or the directing of the crane operator in the movement of the load when the load is out of view of the crane/operator for licensing purposes.

It is based on the National Standard for Licensing Persons Performing High Risk Work and in its current form meets state and territory licensing requirements. On satisfactory completion of theory and practical assessments, an application can be made to your relevant State or Territory for a High Risk Work Licence or an endorsement on any existing High Risk Work Licence that made be held.

You will learn about:

- appropriate mathematical procedures for estimation and measurement of loads
- basic knowledge of types of cranes and their functions
- Commonwealth, state or territory OHS legislation, standards and codes of practice relevant to the full range of techniques for undertaking dogging activities
- load stability and safety factors in line with manufacturer's specifications
- types of lifting equipment and slinging techniques for use, and their limitations and performance in a wide range of conditions (including but not limited to slings, beams, accessories, clamps, work-boxes, bins and pallets)
- understanding of the hierarchy of control.

NATIONALLY RECOGNISED  
TRAINING

You will gain the following skills:

- communication techniques in the workplace including whistles, hand signals and use of fixed channel two-way radios
- communication skills at a level sufficient to communicate with other site personnel
- calculate rated capacity of lifting equipment
- apply different methods for making temporary connections to loads using fibre and synthetic ropes
- ability to interpret rated capacity and working load limit tags
- hazard identification and control
- slinging techniques
- selection and inspection of lifting equipment
- directing crane operators in the moving of loads in a safe manner, using a slewing crane
- inspection and care of a wide range of lifting equipment to appropriate Australian Standards and/or manufacturer's specifications.

**Entry Requirements** - There are no pre requisites for this course.

**Language, literacy and numeracy requirements** – This unit requires the ability to read and interpret various documents, rated capacity and working load limit tags and then communicate information to others. Writing is required to the level of completing required paperwork/reports/forms. Numeracy may involve an understanding of appropriate mathematical procedures for estimation and measurement of loads.

**Duration** - 2-3 Days (Theory Training).

NATIONALLY RECOGNISED  
TRAINING

Upon completion of formal training, participants will be issued with a log book so that they may log practical training hours under supervision of a licenced ticket holder. Once sufficient hours have been logged and /or trainee is considered competent by supervisor and themselves, assessments can be conducted usually over the course of a day. The nominal hours for this course are 120 hours.

**Delivery Location** - This training can be conducted at either your premises or at our training centre. Where training is held onsite training rooms that can comfortably accommodate the class size are required.

### **Personal Protective Equipment**

- Long work pants and shirt
- Covered shoes
- Hard hat and safety glasses
- Other requirements as specified by your workplace or legislation

**Assessment** - The assessment will consist of written and practical activities and written and practical assessment.

**Certification** - Upon successful completion each participant will receive a nationally recognised statement of attainment for CPCCLDG3001A Licence to perform dogging.

**Cost** - Please contact our office on (07) 4779 3667 for information on fees and course dates, and a copy of our Candidate Handbook.
